Yes this is basically my backfill. On future ones for the IC/DIC we should say that they will make field visits (i.e; bring your level D gear!)

No change planned for our current setup with Mine Ops.

This position is at the ICP, but has the potential to be at the mine site at times. I apologize if the statement about conducting field activities was misleading. It is intended to convey the possibility of going to the mine activities, not a certainty of field ops.

Can you explain this request a little more. A deputy IC at the mine site? Transitioning to IC at the mine site? This would be different than how this has been managed. Please fill me in.

Thanks

Subject: REQUEST for: Deputy Incident Commander/Incident Commander to deploy Tuesday,

October 6th 2015 to Gold King Mine Release ICP O-GKM-159

Order # O-GKM-159

This request replaces O-GKM-149. The Durango ICP appreciates your continued support and we are doing our best to provide resource requests as far in advance as possible. We understand that the repeated resource requests have been a disruption to everyone's busy schedule, especially now with EOY and the budget situation looming over everyone. We ask that you give thoughtful consideration to this opportunity to join our high country team here in Durango.

This is a request for a Deputy Incident Commander to deploy to the Gold King Mine ICP. The Deputy Incident Commander will transition to Incident Commander after several days at the ICP. The Deputy Incident Commander will need to check-in at the Durango ICP at 0700 on Tuesday, October 6th, 2015. This is a two week deployment ending Tuesday, October 20th.

This position WILL conduct field activities.

-

Please respond in the negative or with a name and their availability by COB Friday, October 2nd, 2015.

Thank you.

Robert Snyder
